The increase in the valuation has been mostly in the northern counties, while the supervisors have assessed at nearly cash value, at least they came nearer it than ever before. With but two exceptions, Gratoit and Clinton counties, the board added to the assessed valuation of every county in the State. Those counties to which the greatest amounts were added, were Jackson \$8,000,000, Branch \$7,000,000, and Wayne \$10,000,000. The growth of the State for the past five years will no doubt justify the increased valuation put upon it by the board.
